1. Claims 2 and 5/2 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Both of the leaf springs can't extend from the metal upper housing.

2. Claims 1-5 define over the prior art of record. Claims 1, 3, 4 and 5/1 are allowed. None of the prior art of record discloses or teaches a switch comprising a first leaf spring formed on the connector, and a second leaf spring, wherein card insertion forces one spring against the other, in combination with the rest of the claimed subject matter.

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
